

## User Agreement

Last updated: March 25, 2026

This User Agreement (hereinafter, the "Agreement") governs the relationship between the Administration of the website <https://ggsel.net> (hereinafter, the "Administration") and the person (hereinafter, the "User") registering a personal account on the website <https://ggsel.net> (hereinafter, the "Service").

### 1. General Provisions

1.1. The User undertakes to familiarize themselves with the terms of this Agreement and to accept them in full. Use of the Service confirms the User's consent to the terms of the Agreement.

1.2. Acceptance of the Agreement shall be the performance of registration actions in the Service, or the performance of any other actions confirming the intention to use the Service for the purpose of selling digital goods or services on the Service.

1.3. The Administration has the right to amend the Agreement at any time without prior notice. The amendments shall take effect from the moment the new version of the Agreement is published on the Service.

1.4. By entering into the Agreement, the User confirms that they have full legal capacity to enter into the Agreement, including all necessary permits and/or licenses to conduct business activities, in accordance with the legislation applicable to the User. Under no circumstances shall the Administration act as a tax agent for the User, who shall independently fulfill all tax obligations provided for by the laws of his or her country of residence.

1.5. The Agreement is a supplement to the public offer posted at: [https://ggsel.net/documents/p\\_offer-en.pdf](https://ggsel.net/documents/p_offer-en.pdf) (hereinafter, the "Offer") and applies only to the legal relations between the Administration of the Service and the Seller, as defined in accordance with the version of the Offer. In all matters not regulated by the Agreement, the Parties shall be guided by the terms of the Offer. In the event of any inconsistencies, the text of the Agreement shall prevail.

### 2. Subject of the Agreement

2.1. The Administration provides the User with the opportunity to place digital goods and services on the Service, ensuring technical support and transaction security.

2.2. The Service acts as a platform and is not the seller or buyer of digital goods. The Administration shall not be liable for the quality of goods placed by Users or for the performance of obligations under transactions between Users.

### 3. Rights and Obligations of the Parties

3.1. The User shall:

3.1.1. Place only lawful digital goods, the distribution rights to which belong to the User or have been granted to the User by the right holder.

3.1.2. Provide accurate information about themselves and the goods or services offered.

3.1.3. Not use the Service to distribute information and materials prohibited by law.

3.1.4. Not take any actions that may cause damage to the Service or third parties.

3.2. The Administration shall have the right to:

3.2.1. Temporarily or fully restrict the User's access to the Service in the event of a breach of the terms of the Agreement or the Offer, or where there are indications of a violation of the currently applicable law in relation to the goods or services placed.

3.2.2. Request additional information to verify identity (including with the involvement of third parties for this purpose) and the lawful use of digital goods.

3.2.3. Remove goods and accounts that violate the terms of this Agreement, the Offer, or the law.

#### 4. Payment and Settlements

4.1. The procedure for settlements between sellers and buyers shall be governed by the internal rules of the Service.

4.2. The Administration has the right to withhold a commission from sales, the amount of which is indicated in the Service.

4.3. The Administration has the right to withhold the User's funds for up to 50 (fifty) days in order to protect the rights and legitimate interests of third parties. The withheld funds shall not constitute commercial credit, and no interest shall accrue on them.

4.4. The Seller shall independently determine the sale price of the goods or services placed by them on the Service and shall also have the right to establish promotions or discounts with respect to their own offers. The Administration may also initiate discounts and promotions by reducing the price set by the User.

#### 5. Liability of the Parties

5.1. The Administration shall not be liable for any direct or indirect losses arising from the use or inability to use the Service.

5.2. The User shall bear full responsibility for the lawfulness of their actions and compliance with the law when using the Service. In the event of a breach of the terms of the Agreement or the currently applicable law, the Administration shall have the right to demand payment of a penalty in the amount of the funds withheld in accordance with Clause 4.3 of the Agreement. The amount of the penalty is recognized by the Parties as justified and proportionate to the breach. The penalty may be transferred to the Administration's account unilaterally and without acceptance.

5.3. If third parties bring claims against the Administration in connection with the User's violation of the law or third-party rights, the User shall compensate all losses incurred by the Administration.

5.4. The User assumes all risks associated with making a transfer carried out in violation of this Agreement or applicable law. The Client waives any claims against the Administration related to such a transfer, as well as any demands against the Administration to carry out a refund operation for such payment. Any claims related to such a transfer shall be resolved between the Users or governmental authorities without the participation of the Administration.

5.5. The Administration shall not be liable for losses incurred by Users or third parties as a result of a breach of the terms of the Agreement or the currently applicable law; for leakage of information about transfers using the Service as a result of wiretapping or interception of communication channels or other similar actions; for disruption of the Service's operability, including that caused by unlawful actions of third parties; for any failures on the Service (including computer viruses), in telephone or other communications; as well as for failures caused by internet providers, actions or omissions of a third party (for example, a telecommunications provider, computer equipment provider, or software provider), or for damage caused by any circumstances beyond the Administration's control (for example, fire, flood or other natural disaster, war, riot, strike, equipment failure, computer virus, or failure in electrical, telecommunications, or other service networks), improper or unlawful use of the Service, as well as abuse of the Service's functionality.

5.6. The Administration shall not be liable in the event of the User's incorrect use of the API (Application Programming Interface; the Platform's software interface). In particular, transactions and/or payouts shall be considered successful only when the Service or the Administration clearly provides a positive response. Transactions and/or payouts shall be considered unsuccessful only when the Administration clearly provides a negative response. In all other situations (for example, incorrect format, timeout (temporary inability to perform the operation)), transactions and payouts shall remain in an undefined status. If the Client independently decides whether a transaction and/or payout is successful (unsuccessful) while such undefined status exists, the User shall bear personal responsibility for such decision.

5.7. Under no circumstances shall the Administration be liable for any direct, indirect, or any other losses for any period arising in connection with the use of the Service.

5.8. Unless otherwise regulated by this Agreement, the maximum aggregate liability of the Administration in connection with the use of the Service shall be limited and may not exceed 100 US dollars for each specific User. If another currency is applied in the country where the dispute is resolved, such limitation shall remain in effect in the equivalent amount of the payment currency.

5.9. All exclusive rights to the results of intellectual activity posted on the Service shall belong to the respective right holders. The User shall bear full and unconditional liability for any possible infringement of copyright or other intellectual property rights.

## 6. Protection of Personal Data

6.1. The collection and processing of Users' personal data shall be carried out in accordance with the Privacy Policy posted on the website.

## 7. Dispute Resolution

7.1. Any disputes arising between the Parties shall be resolved through negotiations. If disputes cannot be settled, they shall be subject to consideration by the court at the location of the Administration.

## 8. Final Provisions

8.1. This Agreement shall remain in force indefinitely.

8.2. If a court declares any provision of the Agreement invalid, this shall not affect the validity of the remaining provisions.

8.3. In all other respects not expressly provided for in the Agreement, the Administration and the User shall be guided by the Offer.

8.4. By using the Service, the User confirms that they have familiarized themselves with the terms of this Agreement and accept them in full.

8.5. Any messages and notices to the Administration concerning the use of the Service or the terms of the Agreement may be sent by email to: [support-sellers@ggsel.org](mailto:support-sellers@ggsel.org).
